## WHAT IS HAZARDOUS & ELECTRONIC WASTE?

Hazardous waste is comprised of household and electronic products containing dangerous chemicals and heavy metals that, if tossed into your trash, will leach from the landfill causing air and water pollution. Any item whose label notes the product as toxic, corrosive, flammable or reactive is considered hazardous.

Where can you dispose of these products? In addition to the facilities listed on the preceding pages that accept some items, Genesee County has 2 collections yearly, one each spring and fall, where you can bring all items listed below. Check dates and locations by calling the Genesee County Metropolitan Planning Commission at 766-6570 or Keep Genesee County Beautiful at 767-9696.

Many products in your home, on your shelves in the kitchen, bathroom, basement, garage and workshop require special disposal procedures including:

Acids	Disinfectants	Insecticides	Prescription Drugs
Adhesives	Drain Cleaners	Insect Repellants	Propane Cylinders
Aerosols	Dry Gas	Kerosene	Rat/Rodent Poison

- Includes televisions (no consoles accepted at twice yearly county collection sites), cell phones, computers and related equipment, fax/copy machines, VCRs, DVDs, video cameras, gaming systems, hand-held devices, etc. Computers: Investigate disk cleaning software on your search engine (free on shareware sites or purchase via commercial sites) or consult a professional. Reformatting hard drive, deleting files and emptying recycle bin is inadequate. Cell phones: Remove SIM card if it has stored phone numbers.

Latex paint: For 2014 Genesee County Household Hazardous Waste Collection in spring and fall, latex paint IS accepted at the City of Flint site on Court Street ONLY, but this option is not advertised. If the paint is in good condition, it is best to donate it to a school, church, theatre or art group that will use it.
